Fiscal Year 2019 Homeland Security Grant Programs Summary

FEMA has released the FY 2019 grant allocations under the State Homeland Security Program (SHSP) and the Urban Areas Security Initiative (UASI). Appropriations levels for SHSP and UASI rose slightly compared to FY 2018. Within the two programs, there were some relatively minor shifts among recipients. Below are details regarding the allocations. Allocation of 25% of a state's combined State Homeland Security Program (SHSP) and UASI funds for Law Enforcement Terrorism Prevention (LETP) activities remains a statutory requirement under the Implementing Recommendations of the 9/11 Commission Act of 2007. **For key changes from FY 2017 see [page 4](#).**

State Homeland Security Program (SHSP)

Purpose: SHSP supports the implementation of risk driven, capabilities-based State Homeland Security Strategies to address capability targets set in Urban Area, State, and regional Threat and Hazard Identification and Risk Assessments (THIRAs). The capability targets are established during the THIRA process, and assessed in the State Preparedness Report (SPR) and inform planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.

Urban Area Security Initiative (UASI)

Purpose: The UASI program fund addresses the risk driven and capabilities-based planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas based on the capability targets identified during the THIRA process and associated assessment efforts; and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.

Analysis: The Urban Areas Security Initiative (UASI) program received a \$10 million funding increase for FY 2019. At the height of the program’s funding in 2010, 64 urban areas received funding. Since then, the number of urban areas receiving funding has drastically decreased. In the FY 2019 Omnibus Appropriation bill, Congress expressed its intent that DHS fund up to 85 percent of nationwide risk. Pursuant to this, DHS announced that 31 urban areas will receive funding for FY 2019, a decrease from 32 in FY 2018.

Port Security Grant Program (PSGP)

Purpose: The Port Security Grant Program (PSGP) directly supports maritime transportation infrastructure security activities. The vast majority of U.S. maritime critical infrastructure is owned and operated by state, local, and private sector maritime industry partners. PSGP funds available to these entities are intended to improve port-wide maritime security risk management; enhance maritime domain awareness; support maritime security training and exercises; and to maintain or reestablish maritime security mitigation protocols that support port recovery and resiliency capabilities. PSGP investments must address Coast Guard identified vulnerabilities in port security and support the prevention, detection, response, and/or recovery from attacks involving improvised explosive devices (IED) and other non-conventional weapons.

Key Changes

Cybersecurity Assessment - FY 2019 recipients and subrecipients will be required to complete the Nationwide Cybersecurity Review (NCSR), which is open annually from October to December, by the end of calendar year 2019 in order for agencies to benchmark and measure progress of improving their cybersecurity posture.

THIRA/SPR Reporting - By December 31, 2019, states, territories, and high-risk urban areas are required to complete a Threat and Hazard Identification and Risk Assessment (THIRA) / Stakeholder Preparedness Review (SPR) for all 32 core capabilities. Also beginning in 2019, jurisdictions are only required to submit a THIRA every three years to establish a consistent baseline for assessment. While the THIRA will be only required every three years, jurisdictions will continue to be required to submit an SPR annually.

M&A Costs for the Operation Stonegarden Program - In retaining Management and Administration (M&A) funds, states may retain a maximum of 2.5 percent of the OPSG allocation, which must be withheld from the pass-through to each subrecipient in an equal percentage. The SAA may also retain additional funding from its SHSP award to manage and administer the OPSG award, but that additional amount is also capped at an amount equal to 2.5 percent of the OPSG award.
